[Kinco Gloves](#)

Finally the Kinco 901 leather gloves are available in the UK!

These gloves have been used for years by US Ski Patrollers, Guides & Instructors as they are super tough & will outperform & out last gloves on the market that are two or three times the price. Check-out the EpicSki or TGR chat forums to see that they're not only used for skiing, but also for welding, heavy work & lumberjacking!

These gloves have a full elasticated cuff, waterproofing with Nikwax Gloveproof & the Heatkeep's breathable insulated lining system. Plus pigskin 'breathes' so the gloves will dry soft after getting wet.

The Heatkeep system uses polyester fibres & combines layers of nylon baffling and non absorbent polypropylene that wicks away moisture from your hands. This insulation protects against cold and heat, so much so that Kinco warns consumers to take care because if the glove catches fire you might not feel it!

These are simply the best value for money glove on the market!

SPECIFICATION:

- Full hide pigskin leather (out wears regular cowhide & fabric)
- Thumb, palm & finger reinforced with suede cowhide
- Draylon thread super strong stitching
- Nikwax Gloveproof waterproof pre treatment
- Heatkeep breathable insulated liner
- Nylon cuff with leather pull tab
- Connecting clip
- One year no quibble guarantee (excluding fire damage!)

SIZES:

- Small (Euro 5-6)
- Medium (Euro 7-8)
- Large (Euro 9-10)
- Extra Large (Euro 11-12)

These are work glove related sizes so a little on the larger size, unlike Hestra which are on the smaller size.

When you first get your gloves they will feel a little tough but this soon goes with use. The gloves being 100% natural leather will take up the shape of your hand & soften with use plus stretch a little. The pre-treatment with Nikwax Gloveproof will last for a while, however we recommend topping this up with further Nikwax Gloveproof treatments to keep them waterproof.

EXCHANGE/REFUND TERMS & CONDITIONS:

Please try the gloves for size before removing the tags etc as only gloves returned in as new condition with the tags attached will be exchanged/credited. Note that the buyer is responsible for the cost of the return postage plus the postage cost for the replacement gloves. If the gloves are returned for refund then only the cost of the gloves will be refunded.
