[Backpacks & Airbags](#)

To compliment our ranges of all-mountain skis, bindings, poles & skins we stock the superb Scott Air 20 & Air 30 backpacks which can be purchased with or without the Snowpulse RAS system to give a highly versatile product that can be quickly adapted to cater specifically for each day's adventure.

The RAS (Removeable Airbag System) weighs 1.4kg & can be removed/reinstated with ease from it's dedicated pocket at the top of the pack. The airbag trigger is integrated in to the shoulder strap for easy/quick access in an emergency but can also be easily/quickly stowed to avoid accidental employment.

Apart from their respective volumes/dimensions the Air 20 & the Air 30 are the same packs with the following features:

- Snowpulse Removeable Airbag System (RAS) compatible
- Strong/durable 600D polyester, 420D polyester & Hypalon material
- Single handed operated safety buckles on chest & waist straps
- Safety buckles made from strong aluminium
- Ergonomically shapes backplate
- Preshaped waist strap with material loops
- Compression straps
- Adjustable diagonal ski carry system
- Ice tool loop
- Seperate shovel/probe pocket
- Hidden hydration sleeve in shoulder strap
- Adapter for bottle hanger & accessories bag

Here's how the RAS system is installed/removed:
