

Warren Smith Ski Academy

I've now been to five of the one week long training camps run by Warren & his team (four in Verbier & one in Saas Fee), plus a number of his off-season Xscape afternoon sessions. The courses specialise in all mountain skiing & offer a superb learning environment by combining the benefits of both private & group tuition.

In Feb '10 I went on Warren's second Japan trip to Niseko/Furano for 10 days great powder skiing & tuition. I'll be going again!

A number of my friends & snowHead forum members have now done Warren's courses on my recommendation & all have said what a great week they had.
